December - 2009

Sub : Magna ships its first full container load to Europe.

Over the past years Magna has put in efforts to establish a sustainable market in the European Union with volume of shipments steadily increasing.

As part of its growth program Magna is pleased to announce the shipment of its first full container load on 6th December 2009 on to Europe.

This full container load consists of parts to a customer in flow control industry. Magna has developed over 35 parts to this customer in Germany. These parts are all approved as per Pressure Equipment Directive (PED/97/23/EC) and AD 2000 - Merkblatt W 0. Magna niche in Europe is in the flow control business

and substantial growth is expected in the coming years including supply of fully finished components.

This achievement is another milestone in Magna's efforts to diversify its markets.
