October - 2003

Sub: Installation of LPG Plant.

Magna is glad to announce the commissioning of its Liquid Petroleum Gas plant. This plant has a storage capacity of 10,000 kgs, which can be increased to 20,000 kgs.

The plant was formally opened by Mr.V.Narasimhan, Executive Director along with Mr.R.Devarajan, Vice President of M/s. Brakes India Limited, Foundry Division, Sholingur, India on 29th October 2003.

The LPG plant will be the source for the proposed LPG based direct heating systems, which include Heat Treatment, Ladle Preheating, Core ovens, Dust Collection, Scrap Pre-heating etc.

The plant is equipped with complete safety precautions and is approved by the Chief Controller of Explosives, Govt of India.

The proposed LPG based direct heating systems will help Magna in improving its productivity and cost effectiveness, enabling it to meet the Global challenges in the future.
