News Letter No: 22

November - 2003

Sub: Commissioning of LPG based direct heating systems.

Magna is glad to announce the conversion of its direct heating systems like ladle preheating, core oven, sand drying etc into Liquefied Petroleum Gas based heating system from conventional electric and diesel based heating systems.

LPG based Ladle Preheating system

LPG Based sand drying system

**LPG based ladle-
preheating system**

This LPG based direct heating system will improve the consistency in quality of the product, with reduced fuel cost and less pollution.

This new direct heating system will enable Magna to supply consistent quality and cost effective product with less pollution to the environment.
