News Letter No: 34

November - 2004

Sub: Magna brings international expertise to train our employees.

Magna is glad to announce its decision to bring international expertise at regular intervals to train our employees on best-in-class technology available in the areas of Engineering, Manufacturing, Quality and Process.

In this context, Mr. KATSUYUKI IMAI, M/S. Mitsubishi Heavy Industries, Japan, was invited to train us about the Furan Fast Loop Line process and methods. Mr. Imai has more than 35 years of experience in foundry industry. He has helped many foundries in Japan, China, India, Korea and other countries.

**Mr.Katsuyuki Imai(Extreme Left) along with Magna Team from left
Mr.S.Sethuraman - Vice President -(Operations), Mr.P.Ramasubbu - Foundry
Superindent, Mr.P.Periannan - Asst.Manager (Melting), Mr.C.Sathyamurthi -
Manager Quality Assurance, Mr.A.Ponnappan - Works Manager, Mr.S.K.Shankar
Raman - Technical Advisor**

**Mr. Imai was in Magna from 12th October 2004 to 22nd October 2004 and helped
Magna in establishing its Furan Fast Loop Molding process and setting up running
systems for the molding line.**

Mr. Imai's visit to Magna had helped Magna in establishing process and methods for its Furan Fast Loop Molding line.
