***Sub:*Magna Automates heavy casting production in Furan Fast Loop Molding Line**

**Magna is happy to announce the automation of heavy molding production with Fast Loop Line by adding an extended closing line for these molds.**

**The new facility was formally inaugurated by Mr. Clay Vetter, Quality Manager and Mr. Carl Honeycutt, Materials Manager of M/S. Flowserve Corporation, Cookeville, USA on 11<sup>th</sup> February 2006.**

### **New Automatated Line**

**This automated line will enhance the capability of Magna's Furan Fast Loop molding line from maximum casting weight of 200 kilograms to 500 kilograms with sizes upto 1200 X 1000 X 800 mm. Previously these heavier castings were made using Manual Furan Molding methods.**

**With this automoted line Magna will be able to meet the higher volume requirements of its customers on bigger size components weighing upto 500 kilograms.**
