## **Sub : Facilities upgradation of Training Center.**

Magna is happy to announce the improved facilities in its training center.

The training center has a total area of 4000 sq. ft. with fully air-conditioned and sound proof hall with state of the art facilities such as multimedia, audio-visual communication systems, furniture and other facilities.

This facility was formally inaugurated by Mr.Lars Johansson, Chairman of The Swedish Foundry Association and CEO of BLJ INVEST AB, Sweden, along with delegates from Swedish Foundry Association on 21<sup>st</sup> February 2007.

**Mr.Lars Johansson, Chairman of The Swedish Foundry Association and CEO of BLJ INVEST AB, Sweden, inaugurating the refurbished training center.**

This training center can accommodate 100 people at a time and it is provided with training materials and publications from leading national / international organizations. In view of enhancing the skills of our employees a series of training programs are planned continuously throughout the year on various topics in Quality Management, Manufacturing, Personality Development, Foundry Technology etc. covering all section of employees viz. managers, staffs and operators.

This training center will enable Magna to reach the milestone of 12 man-days of training per employee per year, which will enhance the skill and competence of our employees.
