Ductile Iron Components Made Easy,

News Letter No: 67

August - 2007

Sub : Upgradation of Stores.

Magna is happy to announce the upgradation of its stores facility to improve the material handling.

This new stores facility has a total built up area of 10000 sq. ft., includes the following sections:

1. Main stores (Spares and consumables)
2. Raw material stores
3. Bulk material stores

This new facility was formally inaugurated by Mr. Peter M. Laube, Managing Director, Regeltechnik Kornwestheim GmbH, Kornwestheim, Germany on 14th August 2007.

Mr. Peter M. Laube, Managing Director, Regeltechnik Kornwestheim GmbH, Kornwestheim, Germany is formally inaugurating the new stores facility.

This new stores will have storage system for all materials with computerized retrieval and inventory monitoring systems.

New
Stores

This new stores will help Magna in the following;

1. Additional storage space for increased volume requirements of plant.
2. Effective material retrieval systems to ensure retrieval of material in a reasonable time to eliminate delays.
3. Effective monitoring of inventory and material requirement planning
4. Conducive work environment for the employees.

This facility will enable Magna to ensure right materials in time to the plant with optimum inventory turns.
