*Ductile Iron Components Made Easy.*

*News Letter No: 77*

*June- 2008*

**Sub : Corporate Social Responsibility activities.**

*Magna has been keenly involved in CSR programs over the years. It has been nurturing primary education activities in the Government schools situated around its factory at Mullipadi village.*

*As part of this program Magna has adopted the Government Higher Secondary School , Kinathukadavu. This school started in the year 1952 has a total strength of 2600 students mostly from the nearby rural areas.*

*Magna, will upgrade the basic facilities of the school in the coming years. As a first action we have taken on the task of rehabilitating of the school's extensive playgrounds, which covers an area of over 5 acres.*

*Magna will also help in the maintenance and repair work of this school's playgrounds and add various sporting facilities and equipment in a phased manner. Besides this the playground will now be able to host district / zonal level sports tournaments.*

### **Playground before rehabilitation**

**Playground After rehabilitation**

*Magna had already adopted local primary schools by providing infrastructure, uniforms and text books.*

*We hope to continue and further expand on this social and activities in the coming years.*
